Dear SPAN Investigators,

The IDA SPAN Uploader 2.0 for Video and MRI uploads is now live. Please delete your old SPAN IDA Uploader 1.0 as videos/MRI will not be uploaded this way. You will need to download the new 2.0 version from IDA under Archives. I have attached instructions to this email. Please email us as questions arise.

A note for MAC users: If you have difficulty opening the new IDA Uploader 2.0 on your MAC computer do the following:

1. Open your Finder application, click Downloads, right-click 'IDA-Uploader-2.0.pkg' and select "Open".

NOTE: If you try to install by double-clicking on 'IDA-Uploader-2.0.pkg', you may receive a message that it cannot be opened. Please ensure that you follow the instructions above to successfully open.

Thank you,
The CC
