Hi Drs. Ayata and Cabeen,

Yale sent in their TTC image for QC2311. I have added D2 image for QC2311 to the google drive link listed in the email below and have attached it to this email as well.

thanks,
Karisma

Hi Drs. Ayata and Cabeen,

I have added all 4 UTH Images (Included in pp3) in the google drive linked below. Yale sent us two TTC images, I will query the site to send us TTC images for QC2311 and let you know when it is added to the google drive link. I also included the Day 30 IW images. Let me know if you have trouble accessing the link or have any questions.

Wednesday, Dec 2, 3:40 AM

Good morning, Karisma,

As of now, Ryan has the following TTC-stained images:

- * all cases from MGH
- * 2 of 4 from UT
- * none from Yale

Based on the Table below we are missing 2 from UT and 3 from Yale.

Any chance we can track them down and get the photos?

Thanks,
C

External Email - Use Caution

Hi Dr. Ayata,

Please see table below, let me know if you have any other questions or require additional information.

Thanks,

Karisma

Site	Surgeries completed during pilot (documented in REDCap)	Survived End of Study (documented in REDCap)	Day 2 TTC sent to CC	Brain Tissue Banking (documented in REDCap)	Notes
JH	16	6	0	0	No TTC/Histo done during pilot
AG	10	5	0	5	
YL	15	11	3	8	5 Brains Saved for H and E staining
IW	10	9	0	0	No TTC Volumetry acquired for Day 30, brains too damaged
UT	10	5	4	4	
MG	10	10	5	5	
Total	71	46	12	22

Thank you. Would you please send me a table showing how many pilot animals were studied at each site and how many were sacrificed at 2d for TTC and at 30d for histo? This is just so I know what to expect at best. If even best case data is not good enough, we will have to change tack.

C
