Dear SPAN Investigators,

Please find attached for your review the minutes from today's 4/28 Steering Meeting. Also attached is the updated Stage 2 Run-in experimental protocol, Stage 2 Pilot MRI Memo, and the MRI pipeline validation experimental protocol.

## 4/28 Update regarding IDA visit codes:

LONI has created new visit codes in IDA for the '*Stage 2 Pilot*'. Now sites can select *BL* (baseline), *D2*, *D7*, *D28*, and *D29* for your video and MRI uploads in the Stage 2 Run-in phase.

LONI is working on a separate visit code for '*MRI Validation D2*'. This visit code should be used for MRI scans that follow the 48 hr. MRI/ TTC protocol.

Please remember to email [spancc@usc.edu](mailto:spancc@usc.edu) when a video or scan is uploaded into IDA. Include the Animal ID, scan date, model, age of animal, timepoint in your email.

Thank you,  
The CC
