Hi Karisma and Jessica,

I'm sending here attached 2 examples of image of our TTC analysis. To set the scale on image J I use the slide width (2.5cm).

I'm sharing with you our 3 months schedule (I'm still modifying that) but I have scheduled the MRIs and send to Yale team so everyone could organize their schedules.

I have a concern, we have not be trained yet to do MRI volumetry, so I can't estimate the amount of time it's going to take.

Best,
Ligia
