Dear Spanners,

What a week! A whopping 72 mice were enrolled last week, as you all prepare for the upcoming holiday hiatus. We at the CC are so glad to see this burst of activity. We have to raise the flag for data accuracy as well – with so much surgery, behavior and MRI scanning it will be easy for mistakes to creep in to the data. Please stay vigilant and if you have any questions about the surgical method, please let us know.

We have rescheduled the PI conference call on Stage 2 to 12/23 so that the stats team can attend. We hope the PIs can all make that, but in the meantime please do be thinking about the next model and what you will feel best about doing. We are ready at the CC to set up the infrastructure for whichever model you decide on.

We wish you all Peace in this run up to the holidays, and for those who will be observing this week, Happy Hanukkah!

Best wishes,

CC
