Hi Ryan,

Please see attached the completed text file template for re-uploaded images and the text file template for new images completed today.

Thanks,

Karisma

Friday, Nov 13, 12:35 PM

Hi Karisma,

I have reuploaded MRI data from 10/14/2020 with the correct animal IDs. I also uploaded MRI data from today (11/13/2020). All MRI information will be found in the two attached files. Thanks.

Best,

Shuning

Hi Shuning,

You will need to re-upload the correct MRI images for the incorrectly labeled Animal IDs AM4921 and KX0361. I will delete your 10/14/20 MRI uploads for these animal IDs. Unfortunately, once the MRI file is named and uploaded into IDA there is no way for the CC to re-label MRI files. Once the correct Day 2 MRI images are re-uploaded please send me a template as you normally do with the date of upload.

Thanks,

Karisma

Wednesday, Nov 11, 4:08 PM

Hi Karisma,

Attached please find the information about the stage 1 MRI (11/11/2020) from UTH site. The data has been uploaded. In addition, two mice from day 2 MRI performed on 10/14/2020 were miss labeled. The correct ear tag numbers were in red in the second attached file: Stage1_day2_20201014_corection. Thanks.

Best,
Shuning
