Thanks Karisma -- maybe we should circle back with them to see if this means the data were uploaded to the IDA with the wrong IDs. If so, it may be best to re-upload with the proper ones.

Hi Karisma,

Attached please find the information about the stage 1 MRI (11/11/2020 ) from UTH site. The data has been uploaded. In addition, two mice from day 2 MRI performed on 10/14/2020 were miss labeled. The correct ear tag numbers were in red in the second attached file: Stage1\_day2\_20201014\_corection. Thanks.

Best,  
Shuning
